

LET'S **STOP** THE SPREAD

Stay at home to stop Coronavirus spreading that also means avoiding hospitals and clinics

To restrict contact, visitation will be cancelled, non-urgent operations will be postponed or cancelled. Patients on chronic medication will be given two month's supply where possible.

Patients who need to seek emergency life-saving care, family planning service and antenatal care can attend their facility as well as those who have had their appointments confirmed.

**If you are not sure when to seek medical care, call
